

Installation Policy

(When client chooses to install themselves)

Please remember that to receive the best look for your custom window treatments, it is best to have our certified installer do your installation. When we install we assure that the job is accurate and the treatment is displayed properly. If it is not perfect, then we will make all adjustments necessary to ensure that it is perfect in the end.

Hunter Douglas blinds must be installed by our Hunter Douglas Certified Professional Installer or the lifetime warrantee will be voided.

Custom Window Treatments Installation cannot be guaranteed unless we install it. We also cannot be responsible for the final appearance of the treatment if it is not installed and dressed out properly by the client.

A client may choose to install the custom window treatment themselves. If so, they will be responsible for the following:

- Ⓜ Transportation of the treatment, including picking it up and supplying your own coverings and tie-downs to keep the treatment safe, protected and secure.
- Ⓜ All hardware (unless purchased through our business) will need to be supplied by the person installing including, screws, drapery hooks, brackets, etc.
- Ⓜ All dress out of the treatments including steaming, tacking, and displaying will be the responsibility of the person installing.

Install instructions can be provided by Accents, Draperies...and More with prior request by client and for a \$25.00 fee per treatment.
